Program Educational Objectives

At Rama University Computer Science and Engineering program will prepare its Post-graduates to:

PEO1: To produce post graduates who can contribute in research and development to the advancement of computer science and engineering.

PEO2: To impart knowledge and skills to analyze, design, test and implement diverse range of software.

M. Tech. Part Time Computer Science & Engineering

PEO3: To develop team work capability so that they can work on multidisciplinary projects and exhibits high level of professional and ethical values.

Program Specific Outcomes

- **PSO1:** Able to take on existing models, techniques, algorithm etc. for efficient solving problems.
- **PSO2:** Able to design, develop and evaluate a new and innovative project which meet the desired needs of industry and society.
- **PSO3:** Able to apply software engineering principles and practices to provide software solution.
- **PSO4:** Able to take up higher studies, Research & Development and Entrepreneurships in the modern computing environment.

Program Outcomes:

The main outcomes of the M. Tech-Part Time (CSE) program are given here. At the end of the program a student shall be able:

PO1: An ability to independently carry out **research, investigation, and development work** to solve real-world problems in **Computer Science and Engineering**, especially in emerging areas.

PO2: An ability to **write and present** a substantial **technical report/document** reflecting sound understanding, analysis, and interpretation of contemporary CSE topics.

PO3: Students should be able to demonstrate a **high level of mastery** in core and advanced areas of **Computer Science and Engineering**, significantly beyond the level of a bachelor's program.

PO4: An ability to apply **knowledge, techniques, skills, and modern tools** in areas.

PO5: An ability to apply **creativity and innovation** in designing, modeling, and implementing **intelligent systems, secure architectures, and scalable computing solutions**.
