➤ PLACE OF LITERATURE REVIEW IN RESEARCH

➤ LITERATURE REVIEW

➤ PLACE OF LITERATURE REVIEW IN RESEARCH

PLACE OF LITERATURE REVIEW IN RESEARCH

- The **literature review** is integral part of the entire research process.
- It makes a valuable contribution.
- The literature review begins before a research problem is finalized and continues until the report is finished.

1. Bring clarity and focus to your research problem

- gives the idea you wish to investigate
- helps you to understand the subject area
- helps you to understand the relationship between your research problem and the body of knowledge in the area.

2. IMPROVE YOUR METHODOLOGY

- A literature review acquaints you the methodologies to answers research questions.
- You will be better positioned to select a methodology.
- It helps you to increase your confidence in the methodology.

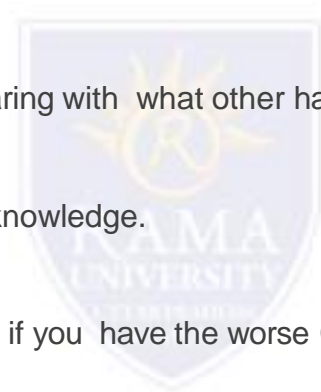

3. Broaden your knowledge base in your research area

- -Ensure you to read widely
- -You can get more method for your work from other researchers that is the key for you to open the warehouse of knowledge related to your study.
- -It enables you to be more professional with the researching work. It helps you to fulfill the expectation that you are an expert when you undertake a research project for a higher degree.

4. CONTEXTUALIZE YOUR FINDINGS

- - It is to put your research in the context which make your research more understandable compare to what are already exist.
- -Improve your researched result by comparing with what other have found.
- -Bring a better record to existing body of knowledge.
- -Choose the better result from others work if you have the worse **one**.

Multiple Choice Question

MUTIPLE CHOICE QUESTIONS:

1. Example for fact finding study is

- a) Pure Research b) Survey c) Action Research d) Long term Research

2. Facts or information's are analyzed and critical evaluation is made in

- a) Survey b) Action research c) Analytical research d) Pilot study

3. Research conducted to find solution for an immediate problem is

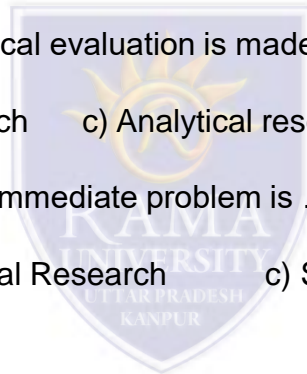

- a) Fundamental Research b) Analytical Research c) Survey d) Action Research

4. Fundamental Research is otherwise called

- a) Action Research b) Survey c) Pilot study d) Pure Research

5. Motivation Research is a type of research

- a) Quantitative b) Qualitative c) Pure d) applied
