

At Individual Level

- Personal Success & Selfish Individualism
- Following “Higher the quantity of consumption, better the quality of life.”
- Overlaying of importance of material values of life
- Downplaying of other life values like moral values etc.
- Rise in rights consciousness but decline in duties
- Adoption of Double Standards

AT SOCIETAL LEVEL

- Group oriented society but limited to caste, clan & village community
- Communitarian feeling declined but social consciousness reminds that individual attainments are related to society
- No attention on social problems like poverty, injustice, caste and gender inequalities

At Intellectual Level

- Value Climate is linked with society's intellectual temper and it's tone is set by writers, academicians, other intellectuals
- Generate New ideas & solutions to human problems but contemporary intellectual temper is critical, imitative & reactive
- Academic compartments produce only narrowly focused specialists
- We want stamp of degree from prestigious inst., awards, recognition, but not the virtues of character displayed

At Cultural Level

AT CULTURAL LEVEL

- Due to socio economy cond. & copying western modes, affect food habits, dress, forms of greetings, modes of entertainment
- Ambivalent and confusing attitude of educated Indians towards culture.
- Peculiar characteristic of our culture is tolerance of New ideas with old ideas which create two opinions
 - 'Unity in diversity '
 - contradictory ideas
