

# Product Layout

- Product layout sets up production equipment along a product-flow line, and the work in process moves along this line past workstations.
- Efficiently produces large numbers of similar items.

(B) Product Layout

# Fixed-Position Layout

- A fixed-position layout places the product in one spot, and workers, materials, and equipment come to it.

(C) Fixed-Position Layout

# Customer-Oriented Layout

- Customer-oriented layout arranges facilities to enhance the interactions between customers and a service.

(D) Customer-Oriented Layout
