COURSE: B.B.A.LL.B. I st Semester

SUBJECT: LAW OF TORTS

SUBJECT CODE: BBL 106

Name of Faculty: Ms. Neha Khanna

LECTURE 3

TOPIC: NATURE, MEANING AND DEFINITION OF TORT

Nature, Meaning and Definition of Tort

Tort is a French word. The term “Tort” has been defined from the Latin term “*tortum*” literally it means “*to twist*”. Thus, something which is twisted to get unlawful or a wrongful act rather than an act which is lawful on straight. The Roman equivalent of tort is “*delict*” which means “*crooked*”. Sanskrit equivalent is “*Jimha*”. Jimha is those branches of law where the King compensate the victim. According to English ‘tort’ literally means ‘wrong’. A wrong denotes that anything which is not right. There are two types of wrong i.e. civil wrong and criminal wrong. There are two types of right i.e. *right in rem* and *right in personam*. *Right in rem* are those rights which available to an individual against the entire world. *Right in personam* are those rights which are available to an individual against the particular individual. Law of Tort is a branch of Common Law of England which is based on judicial decisions.

Definition of Tort

A tort is a violation of a right of a person/ breach of duty by one person towards another. Some of the important definitions, which indicate the nature of ‘tort’, are as under:

Winfield: Tortious liability arises from the breach of a duty primarily fixed by law. This duty is towards persons generally and its breach is repressible by an action for liquidated damages.

Salmond: Tort means a civil wrong for which the remedy is a common law action for unliquidated damages and which is not exclusively the breach of a contract or the breach of a trust or other merely equitable obligations.

Fraser: It is an infringement of a *right in rem* of a private individual giving a right of compensation at the suit of the injured party.

Lord Denning: The province of tort is to allocate responsibility for injurious conduct.

Section 2 (m) of the Limitation Act, 1963: Tort is a civil wrong which is not exclusively a breach of contract or breach of trust.

The basic idea which is indicated by these definitions is-firstly, tort is a civil wrong, and secondly, every civil wrong is not a tort. There are other civil wrongs also i.e. a breach of contract and breach of trust. Thus, tort is a civil wrong independent to contract.

Exercise:

1. Which of the following are the essentials of a tort?
 - a) There must be a wrongful act or omission on the part of a person.
 - b) That wrongful act or omission must result in legal damage to another.
