The Vision That Created Rama

Late Dr. B. S. Kushwah
Honourable Founder Rama Group

A dream doesn't become reality through magic but it takes sweat, determination and hard work to make it come true. The arc of the gradually blossoming flower symbolizes development from childhood to adulthood, through the process of learning. The catalyst in this process being education, which opens doors for a life full of opportunities.

An ordinary man with an extraordinary vision, without means but with infinite convictions, with desire to excellence. He was a man of honour and deeds. A visionary who believed in education and service to society through education.

He set up Rama Education Society (RES) in 1996 that facilitates modern education in the field of medical, dental, paramedical, nursing, pharmaceutical sciences, engineering, commerce & management, juridical sciences, journalism & mass communication and agricultural sciences. His vision was to provide quality and futuristic education with an aim to prepare responsible individuals who can play meaningful roles in diversified areas of the society.

Vision

RU aspires to lead experiential learning by amalgamation of modern technology training for compassionate- human development of the society. Education focused for tomorrow delivered today in dimensions beyond the moment is a necessity for driving the nation forward and we believe in laying new paths for our new stars!

Mission

- Our mission is to deliver entrepreneurial learning and enabling young minds to develop eco friendly and community oriented new career opportunities.
- We envisage to develop students from all over the world with education delivery processes to suit their requirements and at their place of convenience.
- Our Academia is focused towards instigating imaginative and visionary faculty members in fulfilling their dreams add knowledge and value for the community.

MESSAGES

Dr. Suraj B. S. Kushwah
Chancellor
Rama University

Chancellor's Message

The year 2019-20 came with its own challenges that were unprecedented in the recent history of mankind. The pandemic of Covid-19 brought with itself a situation that tested the tenacity and rigor of our academic processes like never before. I am proud of the fact that our University faced these challenges boldly and ingeniously and came on top of the pandemic.

Despite the historic challenges, the University has registered good progress in its academic and research activities, thanks to the dedication and commitment of its Faculty members and the students of the constituent Faculties. The University Annual Report 2019-20 presents a promising picture of the progress made by the University in the past one year.

It is heartening to see the vision of our Honourable Founder, being translated into a reality by the Rama University. The contribution of all the stakeholders is duly acknowledged towards establishing the dominating status of our University in the community. I thank all the people associated with the University and wish them good luck and more success in their future endeavours at the University.

Dr. Janardhana Amaranath B.J.
Vice Chancellor
Rama University

Vice Chancellor's Message

I feel great pride as I present the Annual Report of the University for the year 2019–20. Since our inception in 2014, thousands of students, scholars, staff, and resource persons have created a foundation for Rama University. And it is up to us to build upon it with each passing year.

2019–20 has been a year marked with the spirit of reflection and renewal.

The Covid-19 pandemic forced us to recalibrate our entire operations in a situation that put our students, staff and faculty members in a never before situation. That the University not just completed its academic processes in without compromising on its integrity and registered remarkable progress in research bears testimony to the commitment and dedication of all stakeholders.

This past year, we moved further on the path to progress in each of the priority areas identified by feedback from all the stakeholders. We intensified our efforts to deliver an outstanding learning experience for students, while preparing them for a promising future in diverse ways. We established partnerships with many organizations to provide a cutting-edge experiential learning opportunity to all the students on the Campus. On the research side, our researchers generated impressive knowledge in a range of fields, and raised the IP generation level of the University by leaps and bounds in this year. There is plenty to celebrate when it comes to our university's progress. But equally important is to remember our commitment to an even more promising future that we hope to build together with our community.

Dr. Prateek Singh
Director
Rama University

Director's Message

The education sector is experiencing a churn as the expectations of the young students and the realities of the level of employability of new graduates clash. Our fraternity at the University realises that it is imperative that we deliver a carefully calibrated learning experience to our students. This necessitates an optimized mix of curricular, beyond curricular and extra-curricular engagements in and out the class rooms.

The University has improved its performance in all the benchmarks that it set for itself in its quest for excellence. What makes it special is that this was achieved despite the bizarre and unusual working conditions created by the global Covid-19 virus outbreak which brought the whole world to a standstill. I hope you will agree with this after going through the Annual Report 2019-20 in your hands. Academics, research, engagement with the outside world, enrolments and placements, all saw a marked improvement upon the previous years. The patrons of the University have created a task force that is carrying forward the vision to make Rama a coveted centre of learning and research.

The year has been good and I pledge that we will better ourselves in the next one.

PREFACE

The Annual Report 2019-20 of the Rama University is a document which lends confidence and satisfaction that significant strides were gained by Rama University. It covers all the momentous moments of the session 2019-2020. It is an effort to share an account of academic, research, beyond curriculum achievements. The whole gamut includes vibrant events, competitions and academic performance, placements, research activities, accolades earned in the academic year 2019-2020. The University is currently working in the 7th year of its operations and has shown significant growth in different aspects of academics, research as well as for socio welfare in the previous 6th year.

The University has been always overwhelmed and sincerely acknowledges the guidance and support given by the Honourable Chancellor, Dr. Suraj Babu Singh Kushwah, Vice Chancellor, Dr. Janardhana Amarnath B.J. and Director, Dr. Prateek Singh Sir, for their significant directives to implement various initiatives.

Research finds an appropriate place at the University and it continues to encourage that our students should be provided with an exposure who will work with a competitive research output. Our University focuses on the execution of extra-curricular activities that aims about the overall development of the students. The sole purpose that lies behind all the activities is to ensure that our vision and mission should be reflected in all these activities. Rama University mainly focuses on providing a research based rich environment where students feel free to explore which helps them to enhance their knowledge. Our interaction with external experts from industry and academia is really very helpful and the curriculum is not only updated but also adjusted according to the relevancy of the industry. University's uniqueness lies in its variety, blended with collaboration and an innovative approach that is used for students. Its academic excellence lies in implementing research activities as well as co-curricular activities that helps students to imbibe a sense of learning by doing the things in a more innovative way. The University provides our students hands-on experience by providing learning opportunities in the classroom and beyond. For the last few years, the graph on the innovation in the academic areas is increasing. Scholars find a rich and progressive environment here. The University's authorities are playing a crucial role in initiating new programs. The University is providing a kind of knowledge which infuses enthusiasm in our students and they actively participate in all the extension activities through which our University helps to fulfil the societal needs. Besides this our University provides placement, community engagements, welfare and socio-cultural awareness exercises. The University is ever grateful and extends thanks to the Rama Group, the Patrons, Director, Faculty members, and staff for their unflinching support and valuable advice. With a wonderful journey behind us this year, we commit to raise the bar next year.

RAMA AT A GLANCE

The eye captivating and lush greenery environment of Rama University bewitches every onlooker that spreads around 150 acres adjacent to Mandhana City. Our University offers academic programmes and courses under Various Faculties, namely Engineering, Medical Sciences, Pharmaceuticals, Computer Studies, Health Sciences, Media & Communication, Humanities and Management, Law and agricultural Sciences. The University has well sophisticated and dedicated faculty with international experience, progressive learning approach and modern teaching methodology to provide knowledge to its students. The University offers education with a global paradigm. To provide qualitative education of Academic Programs, the University has collaborated with prestigious universities that will provide a great exposure to the students in their academic interest area. The University has hostels for girls and boys with indoor and outdoor sports facilities and health care centres. The Institute has more than requisite infrastructural facilities for its academic programs and administrative functions. It has a central lecture hall, 28 multimedia classrooms with video recording, adequate facilities, furnished furniture and high quality aural equipment are available. Both graduates and undergraduates have their own sets of lecture halls. In addition each department has their own set of lecture and seminar halls. The Institute has acoustic facilities for research and other activities. The IT department has been created for all maintenance. Most of the important equipment has annual maintenance contracts. Adequately trained staff members are there to maintain equipment and services. The maintenance budget is adequate to take care of all common needs. Our faculties are empowered to undertake all these activities on a regular basis. Besides the academic Infrastructure the support facilities for sports, co-curricular and extra –curricular activities are also available. The University has also put in strenuous efforts for proper maintenance and utilization of infrastructure library, sports grounds, laboratories, classrooms, seminar halls, auditorium hostels and all service installations.

The industry strives to involve the students as members of the international workforce with leadership qualities to serve the communities in different aspects of the society. The University provides funds and scholarship for the research scholars and meritorious students. Today 1346 students are pursuing their desired aspirations via undergraduate, postgraduate and doctoral in different disciplines.

Rama University has developed and maintained a library with all required academic resources including 24 x 7 internet facility with wide bandwidth, and electronic gateways for accessing and sharing electronic learning and teaching resources among researchers, teachers, students and the visitors. The library budget ensures that the latest editions of books and journals are continuously made available. There is a continuous effort of the university to increase the acquisition of library electronic resources. Besides, the libraries also provide:

Online facilities (DELNET, J-GATE, DVL, NDL, E- Shodh-Sindhu, Shodhganga) in the Library are made available on the desktop in various departments through multi user access at the Central Computer Unit. Students having laptops can browse in the lounge areas of the library. Libraries also provide research based enriched environments to faculty as well as students.

Besides this each faculty has their own library and stocked with over 2 lakhs books, periodicals, references, national and International journals, CD- ROMS and e- books are available to faculty and students and can be also accessed remotely. There is a great scope to further enrich resources through higher budgetary allocations for acquisition as well as creation of e- content by faculty.

Indubitably, the sports complex is the central feature of any university and it is truly nice that to embolden our students into successful future aspirants our Institute focuses not only the academic efficiency but also on the overall development of the students. Our Institute has separate grounds for football, hockey, volleyball and cricket. It also houses courts for tennis , billiards etc. are available services of qualified coaches and courses in sports are provided and many students have astounded themselves and represented at University, Inter University and International level competitions. A plethora of activities have been conducted every year to inculcate leadership qualities in students.

Besides this our Training and Placement cell also focuses on harnessing the latent skills of the students. Indubitably, Rama University not only ensures enormous growth potential but also promotes intellectual as well as personal growth.

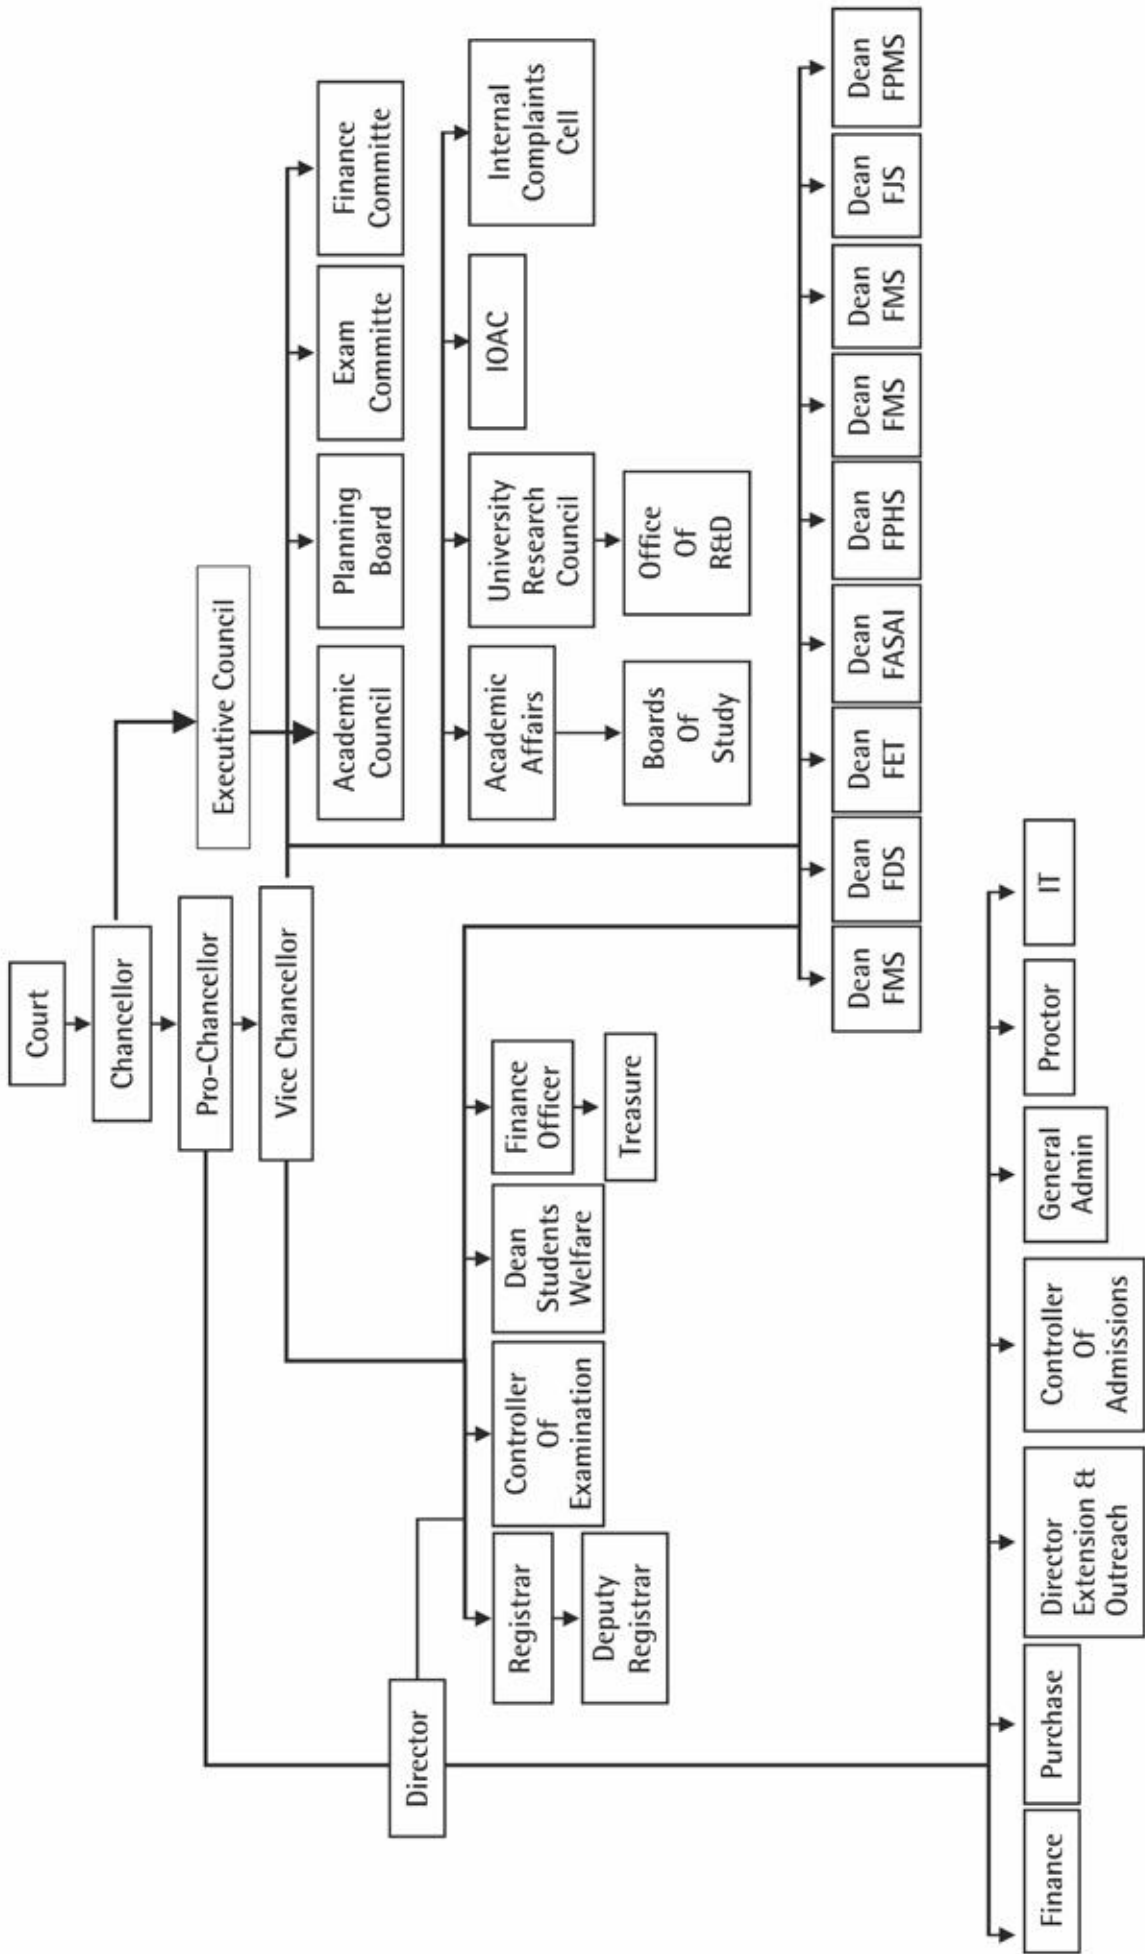

Rama University has been exemplary on a number of new initiatives which promotes augmentation of research, experimental labs, lecture theatres, students' facilities, library, IT department and campus facilities. Since this prestigious Institute is only in existence for the last five years, many major improvements have been achieved in the last five years. This includes, increase in faculty, departments, centres, teaching staff, students, academic programs. Significant improvement has been made in student enrolment, their pass percentage, their placements and enrolment of students. New initiatives like entrepreneurship development, industrial labs support for competitive exams/placements have increased in the last five years. Ultimately, Rama University provides a holistic learning environment where it not only imparts education but also inculcates values that equips our future aspirants to face the forthcoming problems and be an ideal to others to lead the society, country and the world.

SUMMARY OF ACADEMIC OFFERINGS

The University offers diverse and rich programmes which are industry specific and have multi-faceted approach. These programmes are offered through the Faculties and Departments of the University to accomplish the key programme objectives to ensure quality education and training. The University offers variety of programmes under its eleven Faculties viz., Medical Sciences, Nursing Sciences, Dental Sciences, Juridical Sciences, Commerce & Management, Pharmaceutical Sciences, Paramedical Sciences, Agricultural Sciences & Allied Industries, Professional Studies and Engineering & Technology at both the undergraduate and postgraduate levels. The course curriculum of each programme is meticulously developed in a scientific manner and is based on the criteria formulated by Government educational bodies and feedback from students, alumni and industry professionals.

LIBRARY

All Institutes / departments have their own library, to cater to the learning and research needs of students and faculty members. s. All libraries are hubs of intellectual activity and are well-resourced with books, journals, periodicals and e-resources. Wi-fi campuses enable 24x7 usage of e-resources, thus adding to the flexibility of students to study at their pace and time. The Library is to provide information services and access to bibliographic, full text both in digital and printed resources to support the scholarly and information needs of all students, faculty members and staff. The Library remains open, for 358 days of the year, from 8 a.m. to 12 midnight on all working days; 9 a.m. to 12 midnight on Saturdays; 9 a.m. to 5.30 p.m. on Sundays and Gazette holidays and for 24 hours during the two examinations each semester.

SCHOLARSHIPS

Encouraging applicants, Rama University in the year 2019-20 tailored its scholarship program for the youth. Based on their specific interests or any that they know of, the individuals could secure their future. With 805 students benefited from this Scholarship program, Rama University reduced the spiking tuition fee and other need educational adorations, which resulted in noticeable improvement of the students' grades.

To promote opportunities and to allow good academics to stand throughout the college Rama University announced its Scholarship amount to Rs 90,24,440 /-. This program nurtured the future of students who aimed for higher education, and almost 30% percent of students on the campus were benefited.

besides Rama University's scholarship the program successfully encouraged students to fulfill their academic goals and their performance with a deserved appraisal. It was this premeditated concept cause of which the fee of 13 students in the year 2019-20 was waived off - allowing them to take their leap of faith.

RESEARCH & DEVELOPMENT CELL

ABOUT RESEARCH & DEVELOPMENT CELL

The Research & Development (R & D) Cell of Rama University facilitates and encourages research culture among the faculty and students. It enables a congenial environment for technological development and monitors the research activities among different faculty of the University. The R&D Cell takes upon the responsibility of creating a work place to attract the best talent and strives continuously in pooling of skills and internal resources, creating strategy, overcoming limitations, and makes the University proud to be amongst the best institutions around the Globe. The R&D Cell aims to reach the Vision and Mission of the University and is functioning independently since 2016.

In 2019–20, the research outputs are creditworthy. The significant factors indicating potential growth in the research activities includes the enhancement in the research publications in peer reviewed journals, Research Projects/ grants, Patents, Collaborations, Doctoral program and Faculty development. R&D cell is focusing the attention on the following major activities:

Obtaining patents is its one of the priority along with helping faculty in different activity like Book, Book Chapter, Conferences, Copyright, Research Paper, Student Seed Money, Short Term Course Faculty Program Training etc. The R&D Cell also ensures that the University meets its targets for research outputs, working closely with other Units of the University such as Planning and Developments, IQAC etc.

The R&D Cell draft and develop policies related to research and implemented in different Faculty of University.

RESEARCH PUBLICATIONS:

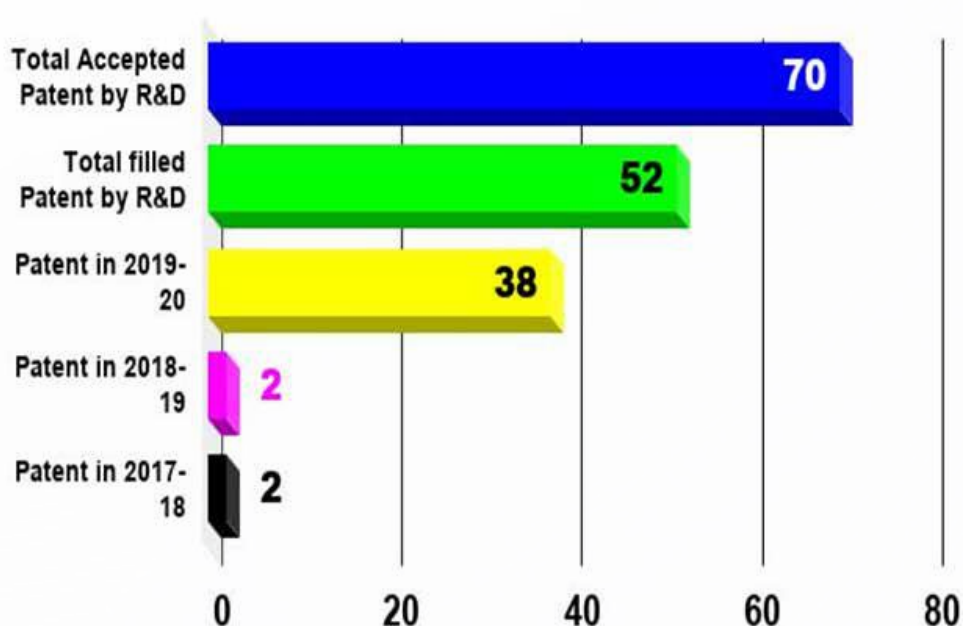

As a result of tireless efforts taken in the research activities, the University has to its credit many research publications in National and International peer reviewed Journals. The faculty members have also presented research papers in various reputed national and international conferences. The total 1000+ research papers have published during academic Year 2015-16 to 2019-20, out of which 700+ research papers have been published in journals and remaining have been published in conferences. It is noteworthy to mention more than 500+ publication published academic Year 2019-20 in reputed peer reviewed journals.

In general near about 145 persons participated in the conference. It was marked by all the dignitaries that the topic of the conference is especially related with the farming communities. It was focused on necessities and real challenges faced by farmers.

4. International conference on Artificial Intelligence & Robotics in Life Sciences (ICAR-2019), - 29-30 November, 2019, FET, Rama University, Kanpur.

Faculty of Engineering and Technology, Rama University organized Two- day International Conference on Artificial Intelligence and Robotics in Life Sciences held on 29-30 November 2019.

The life sciences industry is striving to adopt advanced technology solutions, such as artificial intelligence (AI), robotic process automation (RPA), natural language processing and machine learning (ML) to drive the discovery and development of life-changing treatments. The adaptation of these technologies will help in resolving issues pertaining to product development, drug safety, and pharmacovigilance (PV).

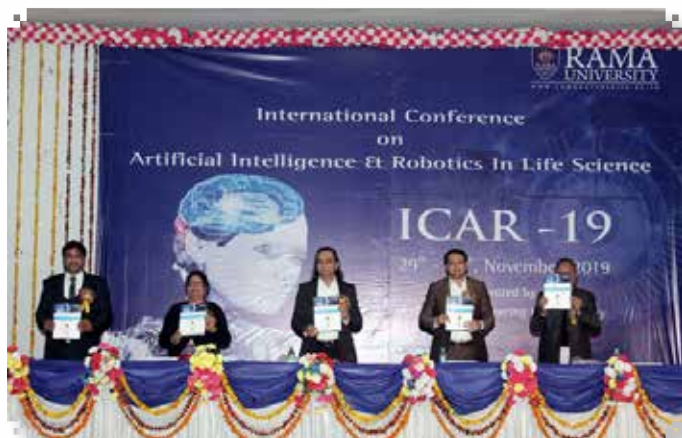

The International Conference on Artificial Intelligence & Robotics in Life Science (ICAR-19) was conducted with an aim to bring together scientists, technologists, young researchers from various disciplines across the globe to discuss the benefits of adapting these advanced technologies, its deployment, risks, and scope.

The program commenced by paying tribute to the Founder-Chairman of Rama University-Late Dr. Babu Singh Kushwah by the eminent chief guest- Dr. Deepak Garg-Prof. Benette University, Noida, Dr. Andres Fredrick –Prof. National Institute of Information- Tokyo, Japan, Dr. Neelam Shrivastava- Director- Rajkiya Engineering College- Kannauj along with our Director-Dr. Prateek Singh and Prabyhat Ranjan- Registrar. Thereafter, our chief guest presented their talk on the subject and enlightened the audience with their insights on how these technologies can enable our country to accomplish the vision of smart society 5.0; a truly digital India.

This is the first conference of its kind where the eminent speakers talked about the Artificial Intelligence and Robotics in Life Sciences. They discussed how artificial intelligence can be used in the life sciences to combat major issues hindering the growth of the industry.

The conference also witnessed the presence of Director- PRO- Dr. Pranav Singh, Deputy Registrar- Sandeep Shukla and Dean-FET- Dr. HariOm Sharan. The event was organized by Samir Mishra, Raghvendra Singh, and Ms. Rati Bajpai.
