

Project

Ongoing/Completed Project Details (2014-2018)

Sl.No.	Name Of The Project	Name Of The Faculty
1.	<ol style="list-style-type: none">1. A new approach of pain elimination using TENS2. Colour stability of various resin composites exposed to different beverages – An invitro spectrophotometric study.3. A clinical and radiographic evaluation of zinc oxide eugenol, endoflas and triple antibiotic paste as a medicament in primary teeth – An in vivo study4. Clinical and radiographic evaluation using 3 pulpotomy in primary teeth5. A comparative evaltion of two different methods of reminerlization of caries lesion in vitro study6. A cross sectional study to evaluate various factors associated with Dental Erosion in school going children.7. Evaluation of Oral Health Status of school children and to assess its association with the parent's education level.	Dr. Anil Kohli

	8. Assessment of longevity of composite and amalgam restorations in posterior teeth of paediatric patients : A Comparative Study.	
2.	1. Biotransformation of Cr(VI) using Nostocmuscorum for Bioremediation	Dr. Ashish Katiyar
3.	<p>1. Knowledge and Approach of Paediatricians in Oral Health of Children of Kanpur City.</p> <p>2. Subjective Distraction Techniques for Pain and Fear management in Peadiatric Dentistry.</p> <p>3. Efficacy of Different Pretreatment Analgesics on Post Operative Endodontic Pain in Primary Teeth – A Clinical Study</p> <p>4. Knowledge &Awarness of Patient on Street Dentistry : A Cross-Sectional Questionnaire Study to Care about Dental Quackery.</p> <p>5. “A Clinical And Radiographic Comparision Of Zinc Oxide Eugenol, Endoflas And Triple Antibiotic Paste As A Pulpectomy Medicament In Primary Teeth An In Vivo Study.”</p> <p>6. Assessment of Knowledge, Attitude and Awareness of Diabetes Mellitus Patients.</p>	Dr. Garima Singh

	<p>7. Prevalence of Tobacco Use and Assessment of Knowledge and Attitude of School Children Towards Tobacco consumption in and around Kanpur City.</p> <p>8. Role of dentist in menstruation: Question to care for females.</p>	
4.	1. Bioethanol production from fruit waste	Dr. Karuna Sharma
5.	2. Isolation of bacteria from food waste and production of bioethanol from it	Dr. Rahul Katyayan

Ongoing Project Details :

Sl.No.	Name Of The Project	Name Of The Faculty
1.	1. Orientation and Etiquette of Pedodontists regarding Protective Stabilization Devices.	Dr. Anil Kohli
2.	1. Orientation and Etiquette of Pedodontists regarding Protective Stabilization Devices. 2. 'COLORS' – Impact of these Mood Elevating Bombs on Dental Anxiety in Paediatric Dental Patients and Clinical Room Design.	Dr. Garima Singh

Project Detail (2015-2019)

Sl.No.	Name Of The Project Undertaken	Name Of The Supervisor	Name Of Group Students
1.	1. Mandibular anterior crowding in early mixed dentition: Contributing factors and its relationship with lateral dentofacial morphology 2. Role of audiovisual distraction	Dr. Anil Kohli	Karuna Sharma

	<p>on behaviour, fear and anxiety amongst paediatric dental patients.</p> <p>3. A new approach of pain elimination using TENS</p> <p>4. Colour stability of various resin composites exposed to different beverages – An invitro spectrophotometric study.</p> <p>5. A clinical and radiographic evaluation of zinc oxide eugenol, endoflas and triple antibiotic paste as a medicament in primary teeth – An in vivo study</p> <p>6. Clinical and Radiographis evaluation of 3 pulpotomy medicaments in primary teeth</p> <p>7. To compare clinical efficacy of recent commercially available dental sealants</p>		<p>Barun Sarkar</p> <p>Amit Dwivedi</p> <p>Mansi Pandey</p> <p>Rahul Katyayan</p> <p>Sukriti Gupta</p> <p>Shipra Srivastava</p>
2.	<p>1. A Clinical And Radiographic Comparision Of Zinc Oxide Eugenol, Endoflas And Triple Antibiotic Paste As A Pulpectomy Medicament In Primary Teeth An In Vivo Study.</p> <p>2. To compare clinical efficacy of recent commercially available dental sealants</p>	Dr. Garima Singh	<p>Rahul Katyayan</p> <p>Shipra Srivastava</p>

3.	<ol style="list-style-type: none"> 1. A new approach of pain elimination using TENS. 2. Clinical and radiographic evaluation using three different pulpotomy in primary teeth 3. A comparative evaluation of two different methods of remineralisation of caries lesion in vitro study 4. Factors contributing to mandibular anterior crowding in early mixed dentition in Kanpur population: in vivo study 5. Role of audiovisual distraction on anxiety and fear among paediatric dental patients. 6. Colour stability of various resin composites exposed to different beverages – An invitro spectrophotometric study. 7. A clinical and radiographic evaluation of zinc oxide eugenol, endoflas and triple antibiotic paste as a medicament in primary teeth – An in vivo study 	Dr. Ashish Katiyar	<p>Amit Dwivedi</p> <p>Sukriti Gupta</p> <p>Surabhi Sahani</p> <p>Karuna Sharma</p> <p>Barun Sarkar</p> <p>Mansi Pandey</p> <p>Rahul Katyayan</p>
