

Program Educational Objectives

There is still a great deal of demand for skilled nurses in the field of Medicine. The world is far away from reaching its brink when we talk of qualified and skilled nurses. The nursing field from medicine has also made its way to the corporate sector which further increases the need of skilled people in the stream. Talking only of India, we are far- far away from reaching the adequate nurse-patient ratio.

There is a good career progress in nursing in India as well as in abroad, candidates can get job opportunities in private and government organizations and may work as teaching faculties, nursing tutors and nursing officers in the clinical areas. A person from this profession has the option of working with government or private hospitals, old homes, armed forces, orphanages, industries, Indian Red Cross Society, State Nursing Councils, Indian Nursing Council and so many other endless possibilities exist today.
